SPOT THE DAMP

It's vital to catch damp early as it often hides, but shows up as tell-tale symptoms: rising damp at wall bases, blistered, plaster peeling paint or a musty smell.

BOOK A SURVEY

Our team of professional surveyors will assess the problem and will explain everything clearly - no surprises. You'll then be supplied with a written no-obligation quotation

FIX IT FOR GOOD

After removing plaster up to a height of around five feet our team will then install your impermeable membrane, repair any damage and install the damp course

BOOK YOUR SURVEY

Why Choose Yorkshire Damp Services?

- ✓ Local experts across West Yorkshire
- ✓ Friendly service & clear explanations
- ✓ Long-term solutions, not quick fixes
